

Peak Beak

Birds are really cool! They have special beaks that allow them to eat different kinds of foods. In order to eat our food, we sometimes use tools that have similar purposes. Match the bird beaks in the top row with the correct tools on the bottom row.

Flamingo

Eats shrimp in water, needs a sifting beak

Bald Eagle

Eats meat and fish, needs a sharp beak

Tucanet

Eats fruit from trees, needs a grasping beak

Macaw

Eats nuts and seeds, needs a strong break

Scissors

Nutcracker

Sieve

Tongs
